Introduction

1. This agreement (hereinafter referred to as the "Agreement") governs the relationship between the Company and the Client regarding the placement of orders and trading financial instruments on the Company's trading platform.
2. Forex trading is a network of buyers and sellers who exchange currency at agreed-upon prices. The Forex market is an over-the-counter market without a centralized place for conducting operations, unlike, for example, the New York Stock Exchange.
3. To open an account and use the Trading Platform, the Client is granted a limited personal license by the Company. The license is granted to individuals who have reached the age of 18 (or any other legal age requirement if applicable). The Client may not transfer the license or provide access to their trading account to third parties. The Client is responsible for any damages caused to the Client, the Company, or third parties in case of a breach of the Agreement's terms.
4. All services are provided by the Company, which acts as the managing company, and the Client enters into a contractual agreement solely with the Company.

Opening a Trading Account

1. The Company will open a Trading Account for the Client upon receiving consent and necessary information. The Client acknowledges the completeness and accuracy of the provided information and undertakes to notify the Company of any changes.
2. The Trading Account will be activated upon the deposit of funds. The Company may allow trading with limitations, even without complete verification and with additional requirements. Failure to meet the requirements may result in the Company freezing the account. Funds cannot be refunded until all applicable rules and regulations are complied with.
3. With respect to any Transaction executed in accordance with the Agreement, the Company may, at its sole discretion, act as a principal or as an agent on behalf of the Client. Thus, the Company may act as a counterparty for the Client's trading operations. The Client confirms that they act as a principal, not as an agent or trustee on behalf of another person. The Client hereby declares and guarantees that their

interaction with the Company under this Agreement and the use of the Company's services fully comply with applicable laws and regulations governing the Client.

Trading Platform

1. The trading platform provided by the Company allows trading in exchange rates of various currencies, commodities, and other financial instruments provided by the Company (hereinafter referred to as "Financial Instruments"). The trading platform displays indicative quotes of exchange rates for various pairs of financial instruments based on various information systems that represent the most up-to-date exchange rates in international financial markets. To determine quotes for different time periods, the platform performs mathematical calculations in accordance with well-known and accepted formulas in financial markets. The Parties acknowledge that due to different calculation methods and other circumstances, different trading platforms and/or markets may display different price quotes.
2. The Client can profit from trading in the forex market by buying currency pairs and selling them at a higher price. The difference between the purchase price and the selling price is the profit they can earn. When this concept is applied to trading currency pairs, it is referred to as a "long position." There is also the concept of a "short position." This means that the Client can sell currency pairs at a high price and later buy them at a lower price, thus making a profit equal to the difference between the selling price and the purchase price.
3. The Company does not guarantee continuous availability of trading on the Trading Account. Temporary access problems to the trading platform may occur due to technical or other factors. The Company makes efforts to ensure the stability of the platform but does not take responsibility for possible interruptions or delays. The Client acknowledges that prices on the platform may change, and the Company is not liable for any potential losses or damages.
4. The Client authorizes the Company to trust and act upon any orders, requests, instructions, or communications provided by the Client or an authorized person on their behalf, without additional checks regarding the authenticity and authority of such individuals. The Client is responsible for all obligations that the Company undertakes on their behalf.
5. The Company has the right, but not the obligation, to establish limitations and parameters to control orders and transaction conditions at its discretion. These may include restrictions on order amounts and sizes, overall Company risk, prices, and electronic services. The Company may also require limitations on the number of open trades by the Client.
6. The Company prohibits the Client from using arbitrage calculations or other methods based on system or platform malfunctions, delays, or errors, in order to take specific actions or inactions. Such practices can harm the Company and violate the principles of fair trading. Such actions contradict the Company's policies and principles aimed at ensuring reliability and fairness in its interactions with Clients.
7. The Company has the right to cancel any transaction made due to an error, system malfunction, violation of the agreement by the Client, etc. The Company has the right to rectify or cancel a transaction based on accurate quotes.

8. The Client can view their open trades and the status of their margin funds through their trading account on the Company's platform. Hard copies of reports are not provided.

Finances

1. The client can transfer funds to the Company's account using various payment methods and in any currency accepted by the Company. The funds will be converted and managed in the account's base currency (US dollars, euros, British pounds) at the Company's exchange rate based on market quotations.
2. When making a bank transfer, the client must provide SWIFT confirmation with full information about the bank account registered in their name. Failure to provide SWIFT confirmation or discrepancies in the data may result in the impossibility of crediting funds to the client's account.
3. The funds deposited by the client, along with profits and other benefits, serve as collateral for transactions and will be automatically deducted from the funds in the client's trading account.
4. The Company will return the funds to the same account or card in the same currency from which they were transferred, except when the Company decides independently to return the funds to another account of the client.
5. The client assures that all funds transferred by them are not the result of criminal or illegal activities and do not violate applicable anti-money laundering laws and regulations.
6. The client is not entitled to make claims against the Company and the Company is not responsible for delays and discrepancies arising in connection with calculations by credit companies, banks, or other financial institutions, as well as for fees and other charges.
7. When the client requests a withdrawal, the financial department reviews each request. The payment is made within 7-10 business days after meeting margin requirements and confirming the client's identity.
8. The Company is not responsible for delays in fund withdrawals caused by third parties or force majeure circumstances.
9. The Company deducts commissions from the client's Trading Account. In case the client has an obligation to pay an amount exceeding the available funds, the client must immediately settle such amount upon the Company's request.

Fees and Commissions

1. The company charges clients broker fees or commissions for executing trading operations. These fees or commissions form part of the cost of executing trades and may vary depending on the type of operation, trading volume, and other factors.
2. All deposits made to the company's account using credit cards or bank transfers are not subject to fees from the company. Clients may incur fees on their side, which will be charged by their bank.
3. All withdrawals made using credit cards or bank transfers are processed without any fees charged by the company. The company covers all fees for bank transfers

associated with fund withdrawals. Thus, clients can withdraw funds from their account without incurring any additional expenses in terms of company fees.

4. According to the rules of your trading account's activity, there may be an inactivity fee. A monthly fee will be deducted from your account until you resume activity on the account or the balance reaches zero. The fees will be deducted from your account balance on a monthly basis if you don't resume activity.
5. The company reserves the right to introduce additional fees and commissions, as well as modify existing fees and commissions, at any time, provided that the client is notified of such changes no less than 10 business days in advance.

Bonus Policy

1. The company may offer various attractive rewards, including welcome bonuses, contests, and rewards for new or existing clients. Bonuses and trading credits provided to clients are part of the company's promotional programs. These bonuses are limited offers, and the terms associated with any bonus rewards may change from time to time.
2. Bonuses and profits derived, even partially, from the use of bonus credits will be canceled in case the company suspects fraudulent activities or violation of the company's Terms and Conditions by the client.
3. To withdraw funds from an account that has been funded with a trading bonus, the trader will need to execute a minimum trading volume equal to (bonus amount + deposit) x30.

1. In connection with the nature of the business activities and client relationships, the Company processes certain personal information about its clients. All collected information, whether in paper or electronic form, is protected in accordance with data protection laws to ensure client confidentiality.
